

Club Foundation Update:

- In February new members were added to the Club Foundation Board of Governors. The new & renewing committee members are:
 - **New Members:** Kelley Williams, CCM, Blaine Burgess, CCM, CCE, and Adam Harris (EZ-GO) – for a three-year term
 - **Renewing member:** Joe Oswald, second three-year term renewal
 - **New Executive Committee Member:** Randy Ruder, CCM, CCE, Secretary
 - **Renewing Officers:** Nicholas LaRocca, Chairman; LuAnn Giovannelli, CCM, CAM, Vice Chairman; Todd Marsh, CCM, CCE, Treasurer
 - **CMAA Board Representatives:** Mitchell Platt, MCM, CCE; Michael Seabrook, CCM, CCE; Joseph Mendez, CCM, CCE; Richard LaRocca, CCM, CCE
- The golf tournament and 5K during the World Conference were a huge success. People had a great time.
- During registration for World Conference, our fellow CMAA members/registrants were generous by choosing to add a donation to their registration – donations increased by more than 45% over the prior registration year.
- Overview of the Annual Report: there was a 17% increase in the number of grants given in FY22 from the prior year, including 40 scholarships and 27 Chapter education grants. CF provided \$111,000 in outreach and industry grants. The dollar amount of scholarships and grant awards increased by 58.36% in FY22. Fundraising and event results also saw positive gains: contributions increased by 11.57% and a modest increase is budgeted for the coming year.
- The CF Annual report can be found at the following link:
<https://clubfoundation.org/documents/financials/2022AnnualReport.pdf> (I have also attached to this email.)
- Strategic planning – The Club Foundation is nearing the end of our 2020-2023 Strategic Plan. All items/goals in the plan have been realized and it is time to update the plan. CF is embarking on a plan extension with the support of the consulting group that assisted us in 2019-20. We are very excited that included in this work is a survey of our members – please watch for that survey and complete. Participation by all members is critical in our ability to measure our programming and evolve if needed in what we offer – and get a better understanding of what we do well. It will come to folks by direct email. Also included in the work will be one-on-one interviews of key board, staff, donors, and scholarship recipients.
- Chapter Excellence – CF works hard to provide grants and scholarships each year, but there is a LOT of truly outstanding work going on at the Chapter levels – each year Chapters and clubs collect funds, charitable items, and hold events to support a variety of charities (and CF). It is part of what we do and part of the personality of our industry. CF is aiming to collect some of those outstanding stories and has created an online form to collect those accomplishments. Greatness comes in all sizes – a volunteer recruitment effort to collect toys for children at Christmas may be just as powerful as a golf tournament that raises thousands for a worthy cause. **If you were moved in anyway by the work being done by you, your colleagues, and peers, please take a minute to give us the details! Here is the link**
